CHROMAX
by NOCTUA
NOCTUA NA-HC

Noctua's NA-HC heatsink covers are add-on accessories for the award-winning NH-U12S and NH-D15(S) series CPU coolers. Made from high-quality, powder-coated aluminium and available in black (chromax.black), white (chromax.white) and black with swappable inlays in black, white, red, blue, green and yellow (chromax.black.swap), they allow users to colour-customise their coolers in order to coordinate them with popular build colour schemes such as all-black, black and white or black and red.

Thanks to the easy, straightforward installation, changing the looks of a Noctua cooler only takes a few minutes and doesn't even require taking it off the CPU. Combined with the chromax.black.swap edition fans, the NA-HC covers give users endless possibilities to design their very own, individual Noctua coolers that look just as great as they cool!

| Product name	NA-HC1 chromax.black.swap	NA-HC2 chromax.black	NA-HC2 chromax.white
EAN-No.	9010018200386	9010018200393	9010018200409
